SHEAFFER'S®

Presents

**The WORLDS' largest and finest
selection of**

DESK SETS

The world's most beautiful onyx, crystal and marble make Sheaffer's Desk Sets the line of distinction.

On the front of this catalog the five materials used in Sheaffer's desk sets are pictured in color, below are listed the materials and something about them:

JET CRYSTAL

Clean, gleaming beauty is achieved by meticulous hand polishing of high luster, black crystal glass. In manufacture, it is cut and polished with infinite care to achieve designs to enhance surroundings, modern or traditional.

MEXICAN ONYX

This south-of-the-border product is also quarried in the southwestern United States. Its beautiful striations are brought out by a special polishing operation that applies a jewel-like finish to the surface of carefully-selected specimens.

BRAZILIAN ONYX

This exquisite onyx has its origin high in South American mountains. It is cut into slabs and graded for quality and veining. Sheaffer selects only the most uniform, beautifully grained onyx to polish and finish for bases.

ITALIAN MARBLE

Traditionally the stone of artisans, marble serves the same purpose in Sheaffer desk sets. Selected from its old world source, it is a gracious addition to modern American homes and offices.

SPANISH ONYX

A rich, brown stone which had its origin in Spain, this onyx polishes to a regal luster, blends beautifully with any desk wood. New veins of this material have been opened in Africa which now provide the supply for Sheaffer bases.

WHEN IT COMES TO WRITING - COME TO **SHEAFFER'S**

SHEAFFER'S NEW DESK SET LINE

SHEAFFER'S desk sets are all available with either the "White Dot" or conventional Sheaffer's Snorkel pens, black or brown. The desk sets may be fitted with any combination - pens, pencil or ballpoint.
